Fits 80mm Downpipes	YES	PVC or Metal
Fits 100mm Downpipes	YES	PVC or Metal
Fits Leafguard	NO	

150 Half Round Spouting excels in performance as well as appearance. It has a large capacity and with its rounded profile, the water is able to move quickly and efficiently. This also prevents residue build up at the corners or along the edges, thus reducing the possibility of blockages. It is ideally suited to architecturally styled homes. Please note there are 3 bracketing options shown below.

Cast Aluminium Bracket

Large Base - Extruded Aluminium Bracket

Small Base - Extruded Aluminium Bracket
