

# Marley uPVC 80mm Downpipes

Roof Pitch	Roof plane area served by the downpipe (m <sup>2</sup> )
0° - 25°	85
25° - 35°	70
35° - 45°	60
45° - 55°	50

Marley 80mm round downpipe is manufactured from uPVC. It is extremely tough and long lasting, requires little maintenance and is UV resistant. Marley 80mm round downpipe is available in 3m lengths.

Unless otherwise stated pricing is for standard white. Coloured/metallic ranges priced on application.

## Fixing Options

**Stand Off Brackets** - Concealed fixing system offering angular and horizontal adjustment, ideal for installation against weather boards or in narrow soffit fixing options. Also available is a spacer system that allows further flexibility when installing the downpipe further away from the wall.

**Flush Brackets** - Standard fixing system that provides a cost effective method while still allowing flexibility of movement on uneven surfaces.

**Munzing Rings** - Manufactured in cast aluminium then powdercoated to match the downpipe colour. Munzing rings are ideal for installations against weatherboards or with narrow soffits where a variable offset from the wall is required. The length of the threaded rod can be adjusted to suit.

**Components Available**
